Company Intro

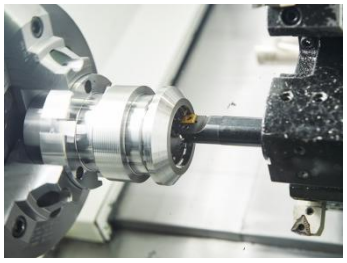

Shin Li Auto Parts was established in 1977. We are the main aftermarket supplier for brake system parts and have been an important player in this industry for over 40 years. We specialize in the production of brake drum, brake disc, wheel hub, and flywheel for commercial vehicles. We provide customers with one-stop service from "mold developing ", "casting" to "CNC machining"; these processes would be all completed in our factories. In recent years, we have actively cooperated with our clients to develop new products. We provide solutions if clients can provide drawings or samples and the materials are from FCD 450 to 800 or FC 200 to 300. In order to improve self-quality standards and to be competitive in the market, we implement Japan's Mitutoyo 3D measuring equipment and auxiliary software to support our production. We are setting up a quality standard that meets OEM standard or even exceeds OEM standard. Our products are not only supplied to the domestic market in Taiwan but also export to Japan, Australia, Southeast Asia and other countries in Europe and America.

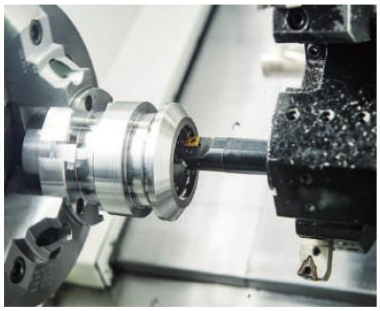

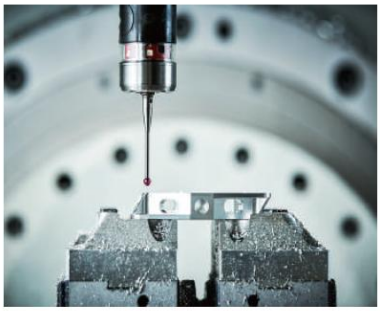

■ CNC加工生產設備 CNC Machining Equipment

1. OKUMA CNC車床 V760EX ・最大加工直徑：760mm ・最大加工高度：770mm	1. OKUMA CNC vertical lathe V760EX ・Max turning diameter: 760mm ・Max work height: 770mm
2. OKUMA臥式車床L270/L370 ・最大加工直徑：270/370mm ・最大加工長度：300mm	2. OKUMA CNC horizontal lathe L270/L370 ・Max turning diameter: 270/370mm ・Max work height: 300mm
3. 油機CNC立式車床YV-800A ・最大加工直徑：1000mm ・最大加工長度：600mm	3. Youji CNC vertical lathe YV-800A ・Max turning diameter: 1000mm ・Max work height: 600mm

COMPANY HISTORY TIMELINE

1977

SHIN LI AUTO PARTS CO., LTD., is founded in Chiayi specializing in machining brake drums and wheel hubs for trucks.

1997

Company establishes new foundry and casting department. The company implements Germany Sinto HSP automatic molding line in production, completes our goal of one-stop service.

2005

Company becomes OEM supplier of FUSHEN INDUSTRIAL, supplying rotary screw.

2013

Company becomes OEM supplier of Hanbell Co., Ltd and Japan Komatsu Ltd.

2016

1. Company implements Japan Sinto automatic molding line in production, increase the monthly production capacity to 1200 tons.

2. Company implements robot arm in production line.

2020

Company implements various 5-axis vertical machining centers in production.

1982

SHIN LI AUTO PARTS becomes the largest brake drum supplier in Taiwan, obtaining 60% of the market share in Taiwan's domestic brake drum market.

1999

Company acquires ISO 9001 certification.

2000

1. Company implements Denmark DISA molding line in production.
2. Company becomes the official supplier of ISUZU MOTOR and KYMCO MOTOR.

2012

1. Company establishes new foundry plant and headquarter in Dapumei Intelligent Park.
2. Company creates a new brand name for the casting department, ROTAL METAL CASTNG., LTD.
3. We reach the goal of monthly production capacity to 600 tons

2018

Company becomes supplier of MITSUBISHI ELEVATOR CO., LTD.

2019

Company becomes supplier of Japan SUMITOMO CO., LTD.
